

# Grounding Kit

Lightning Protection for 1/2" Superflexible Foam Dielectric Cable

## PRODUCT FEATURES

- Reusable
- Fast and easy installation
- Large contact surface area
- Fits multiple cable brands
- 10-year comprehensive warranty

## PRODUCT PROFILE

Grounding kits from Exir Telecom feature an efficient design enabling multiple units to be mounted very close together. A simple, adjustable construction allows for easy attachment to a wide range of cables from various manufacturers. These grounding kits are reusable.

The contact surfaces are designed to closely fit the corrugated surface of the outer conductor, thus avoiding unnecessary pressure. As a result, the effect of grounding on the VSWR measurement of the antenna line is barely detectable.
